

The All Purpose Dolly (Dolly-300)

Specification			
Overall Height	Width	Weight	Seat Depth
40"	18.25"	33.6 lbs	37"

Features & Benefits

- Safe & efficient way to transport the "Max" Resin Folding Chairs, "Max" Resin Chiavari Chairs, "Max" Metal Ballroom Chairs or the "Max" Poly Folding Chairs with the use of the specially designed, easy to use, hinged lip.

(A) When fully extended, the all purpose dolly is the proper length to accommodate 50 stacked Poly Folding chairs.

(B) When folded in, the All Purpose Dolly accommodates the wood and 30 stacked resin folding chairs, becoming the proper length for safe transportation.

(C) Extended inner frame accommodates two stacks of Chiavari Style chairs for easy transportation of up to 14 chairs at a time.

(D) Inner frame also has grooves that perfectly holds a "Max" resin folding chair in place.

(E) Each Polyolefin Caster Wheel can hold up to 1000 lbs.

(F) Handle bar with 2 extra bars studier / Removable handle with clutter pin

(G) Useful Brakes and swivel wheels
